PROFILE

Hello, my name is Sanjay, and I am a dedicated frontend developer with a passion for creating intuitive and visually appealing web interfaces. I have a strong background in HTML, CSS, and JavaScript, which allows me to build responsive and dynamic websites.

EXPERIENCE

MSA DIGITAL WEB WORLD SOLUTIONS

Oct 2023 – May 2024

Eight months of experience as a junior frontend developer in MSA Digital Web World Solutions

- Create real Forex Trading Apps projects for clients.
- Creating websites using Bootstrap Grid, CSS Flex, CSS Grid & float.
- I have created responsive layouts using media query.
- Working on CSS animations for better user experience across the browsers.
- Developing application-level CSS using CSS pre-processor i.e., SASS.
- Converting PSD files to HTML document.
- I have created carousel or slider using Bootstrap 3 & jQuery Owl Carousel.
- Creating Hamburger Menu using JavaScript & jQuery also.
- Accessing DOM elements & fetching the data through JavaScript.
- I have also done Form Validation using JavaScript in Corso website.
- Animation on scroll effects using AOS library.
